Response to Amendment

1. This Office Action is in response to Amendment filed 4/22/2004.

Claims 1-10 and 12-17 are allowed.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the amended Specification, a new Abstract was added as follows:

Abstract

A method and apparatus for measuring the water content of a liquid, including a method step for electrically measuring the property of the liquid for one parameter. The properties of the liquid are measured at least substantially simultaneously by another electrical method, where the properties of the liquid are measured using both a relative-value and an absolute-value measurement method.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: The prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious the claimed invention, recited in the independent claim 1 as amended, for a method of measuring water content of a liquid, including electrically measuring

properties of the liquid ***substantially simultaneously and repeatedly by an absolute-value measurement in order to determine a dielectric coefficient of the liquid, and by a direct relative-value measurement method in order to determine a relative water content of the liquid.***

Further, independent claim 9 as amended, recites an apparatus for measuring water content of a liquid, ***including electrical sensor means for measuring absolute water content of the liquid being sensitive to changes in a dielectric coefficient, electrical sensor means for directly measuring a relative water content of the liquid, and means for controlling both electrical sensor means such that the properties of the liquid are electrically measured substantially simultaneously and repeatedly.***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James C Kerveros whose telephone number is (703) 305-1081. The examiner can normally be reached on 9:00 AM TO 5:00 PM.
